“ Billy loved to read when he was a kid. Funny thing was Billy would lie down on the bed put the book on the floor and hang his head over the side of the bed to read.

Billy was a lot smarter than I and he was very good at perceive phony people and for him this was gift and a curse because he had to decide how to handle each situation as it came at him. And sometimes the people were family so it was very hard.

Billy was well organized and many of his friend had relatives that worked with me so very often I would here it said that Billy had every day and every hour of the day planned out before he started.

Billy's gift of perception helped him greatly as a Safety coordinator, he would tell me that he took the time to talk to the upper management and find out exactly what they wanted in their safety procedures without really letting them know. And then he said I put the OSHA manual in the desk drawer and used the information I gathered to give the upper management exactly the safety procedures they wanted on each job. So the upper management really liked Billy and his work ethic.

Some people said Billy had many faults, so don't we all. And Billy wasn't much for Church, but instead of finger pointing we must remember: Matthew 7:4-5 So how wilt thou say to thy brother, Let me pull out the speck from your eye; and, behold there is a beam in thine own eye? Thou hypocrite, first cast out the beam out of thine own eye; and then and only then shalt thou see clearly to cast out the little speck from thy brother's eye.
