“ I worked with George on the med fly projects in la ,he always looked after his fellow workers ,he carried his caring attitude over in the local union ,when he was the president of the national council for Afge grain ; we were one of the first councils which negotiated the forum agreement mandated under the obama administration. George was always friendly and helpful.

“ I had the pleasure of working with George for many years. We talked about everything for music to politics. One of his favorites was talking about the union work he was always doing. He always came into work with is brown paper bag full of food and candy and then ask it you wanted anything for the Chinese restaurant or Golden Coral. He loved his food. Then he would talked about his son and wife and how proud he was of them. He was always kind to everyone and he will be missed by all.
