“ *Joe was always an inspiration to me at work. No matter the situation, he was always positive, putting others needs first, and simply displaying the values and behaviors I wish I could always emulate. Joe's inspiration will not end with his passing; it will never end.* ”

“ *Knowing and working with Joe was one of God's blessings. Joe showed every day that he lived his life as we all should, but little do. He had a wonderful dedication to his family that made him a special person with balance in his life. He worked tirelessly and diligently in his work and had been recognized for it. Everyone knew you could count on Joe! He was principled in practicing a health regiment superior to most and knew that he would live longer if he took care of himself. He loved and adored Judy and I was honored to know him. Peace be with you, Joe. Amen I say to you, rest now and be with the angels in heaven.* ”

“ *Always a smile and a kind word. There is no way you could be in a bad mood and be around this man. Joe was truly the heart of the W3 Engineering Team. He will be sorely missed. Great friend, immensely intelligent, and warm hearted.*

*I believed Joe was above average in patience, morals & being a happy person. Everyone at Waterford-III was great to be with; but Joe was uncommonly friendly & professional. I was so impressed, really overwhelmed at the number of friends, family & co-workers that were at his memorial today. It was a pleasure to have known & worked with Joe. Judy & Kim must be proud of what a really special American their husband & father was. Thank you Joe for being a Great American!

In 2026, January, I still think of this unique man. A genuine happy, educated and dedicated to his work person. All Joe's family and friends were cheated from having Joe with us all for many years. But, be sure, his memory and influence on all of us is still with us some 8 years later. I'm lucky and so grateful that got to know Joe Lancy and worked with him for years at Waterford-III. Still love you Joe, Dick St. Romain
