“ Eulogy

Our mother was a lovely woman and the center of our family. she embodied all of the attributes of a perfect mom. She was caring, thoughtful, hardworking, compassionate, loving and so much more. It is so difficult to think of all of the words that described our mother as a person and how much she meant to us. Family was so important to her. Our mother worked hard to raise our family and taught us to be kind, she was always there for us when we needed her. She made sure that we studied hard and were enrolled in a variety of activities, which she always transported us to and from. She took us to family outings on the weekends such as BBQ's at the spillway and family vacations every year. She taught us about Respect. She set the expectation regarding interaction, and what was acceptable.

She made sure we had Structure in our lives. The typical school week meant that we were up early to get ready for school, the evening was dinner together as a family, followed by her helping us with homework, we were all expected to be inside when the street lights came on, thereafter brief family tv time prior to bathing. She made sure she always had a clean house and passed that on to us. She set Expectations regarding house keeping even though her expectations were not mutual but none the less would be met; Missy was challenged with cleaning the commodes, for some reason she couldn't quite see the underside of the bowl, even though it was pointed out repeatedly. Deborah realized at a young age that dusting was not a task that she was going to excel at. And David escaped cleaning the house but she made sure he cut the grass. My Personal experience was trip to the camp at Grand Isle, Our weekend was coming to a close and I was tasked with cleaning the boat myself, I had learned my lesson and made a point to ask the Admiral to come aboard for an inspection. We all quickly realized that moms cleanliness was nothing compared to the crazy cleanliness of Michele and together they were a force to be reckoned with!!!! The only difference was mom never got rid of anything and Michele wanted to throw everything away. they would

constantly go back and forth but in the end mom always won. Shirley was a very gentle loving woman but she did have a competitive side. Debbie fondly remembers a fishing trip to Grand isle where Shirley and Debbie caught the biggest Red Fish and loved rubbing it in to the guys.

Debbie-I have so many memories of special time spent with my beautiful mother: shopping, going to special occasions (showers, weddings), I remember how she was always there for me through all my trials and tribulations throughout my life and will miss her dearly. I feel like I could stand up here all day speaking about my mother. She was an amazing woman who taught me a lot. The most important lessons were not verbal; they were in her actions. She always worked hard, never complained and was there when you needed her. She was my mother, but also my friend. I will miss her every day for as long as I live

Missy my special memory of my mother is painting her toe nails, fixing her hair, confiding in her and knowing that our discussions were between her and I. going to the beach and crabbing at grand isle, spending time at the lake front and Ponchatrain beach was one of our favorites. always loved flowers that i would bring to her.

david-Words will never express the relationship I had with my mom. My bond with her was so special that i struggle to find the strength to move forward. My memories are bigger than life, when i think of all the moments we shared throughout my life i can only smile. She was always there for me no matter what. She loved me so much and it showed in every single way. I can remember sitting on the couch watching tv and holding my moms hand. I was and still am "mommas boy." My life is forever changed without her and i will miss her every second of every day
